

Nov. 18

The capital - has now had ~~an~~
time to ~~form~~ opinions of and
in a measure to ~~estimate~~ ^{appraise} ~~the~~
~~State~~ D. Brittain's new Primer

M. - Cle At L, who with
P. M. M = 11. has
Cana -

been conferring with P. Tr
on the great problem of inter-
handling of the ~~slown~~ bount.

Thurs Mr At speech before
Congress was ~~no~~ no

match ~~to~~ in either color
or depth to the masterful
speeches of former P. M. W.

ch, ~~Mr. At spe~~ ~~however~~

It was a well prepared and
thoughtful address that challenges
attention. Mr. At ~~appears~~ ^{to be} a quite,
well mannered, easy spoken gentleman,
with ~~color~~ ^{flair} ~~color~~ ^{flair} and rally rhetoric.

~~His speech was~~

Congress was cautious
and hospitable in ~~its~~ its
reception of the speech, but
~~at~~ some of the extremely
causative members
were more to vigorous
in their applause. As
for me I thought Mr
Atter made a good dem.
speech - and that he
did a good job for
his party and country
by explaining the
program of ~~his~~ the
British Labor party which
he heads and which
the Br people have
called to power.

After long discussion,
P. T. - P. M. at the + P. M. No 12

reached an agreement that whatever
secrets we have on the atomic
bomb would be entrusted
to the U. N. O ~~secretly~~ provided
other members of the Org would
reciprocate by handing their own
secrets ~~to~~

Let us hope and pray
that some way can
be found to curb man
in humanity to man
