

Nov. 18

The capital has now had ~~an~~
time to ~~form~~ opinions of and
in a measure to ~~estimate~~ ~~the~~
~~Prime~~ G. Brittain's new Prime
M. - Ch. At L. who with
P. M. M. = R. has
been conferring with P. T.
on the great problem of inter-
nationality of the crown board.
Thurs. M. At speech before
Congress was ~~no~~ no
match to in either color
or depth to the masterful
speeches of former P. M. W.
Ch., ~~Mr. At the bar~~
It was a well prepared and
thoughtful address that challenges
attention. Mr. At ~~appears~~ to be a quite
well mannered, easy spoken gentleman,
with ~~some~~ some of Ch. - plain
~~rather~~ color and rallying Rhetoric.

~~His speech was~~

Congress was ^{certain} ~~its~~ its
and hospitable in
reception of the speech, but
~~to~~ some of the extremely
conservative members
were more to vigorous
in their applause. As
for me I thought Mr
Atter made a good dem.
speech - and that he
did a good job for
his party and country
by explaining the
program of ~~this~~ the
British Labor party which
he heads and which
the Br people have
called to power.

After long discussion,
P. T. - P. M. at 12 + P. M. 12

reached an agreement that whatever
secrets we have on the atomic
bomb would be entrusted
to the U. N. O ~~secretly~~ provided
other members of the Org would
reciprocate by lending their own
secrets ~~to~~

Let us hope and pray
that some way can
be found to curb man
in humanity to man
